

CLIMATEFIT. Leading EU project on climate adaptation finance

CLIMATEFIT aims at boosting climate adaptation finance by providing critical insight and building the capacities of (i) Public Authorities (PAs) to identify, orchestrate and attract various public and private financing sources, and (ii) Financing & Investment Entities (FIEs) to identify and access resilient investment opportunities.

20
 Innovative Investment Strategies

10
 Scalable Investment Plans

4
 Bankable European Projects

Join the Taskforce of Innovation Management

The TIM is an **expert panel** with the responsibility to support the implementation of CLIMATEFIT's Exploitation and Upscale Plan (E&UP) and its revisions during the project.

The TIM will help CLIMATEFIT's technical partners to identify the innovation potential of CLIMATEFIT's results and **propose exploitation actions and activities to upscale** CLIMATEFIT's outcomes and products.

Exploiting and upscaling innovative products and services for CLIMATEFIT will **support public authorities (PAs) and financing and investment entities (FIEs)** in the EU and possibly on a global scale to engage in new or increase financial activities for climate adaptation financing.

The **TIM will be composed of eight members** from organisations that represent PAs and FIEs in the EU, and academia or related EU Horizon projects.

Leading task
 Scope the innovation potential of project outcomes and propose exploitation strategies and activities

Supporting task

- Provide feedback on CLIMATEFIT's E&UP
- Promote CLIMATEFIT innovations in your organisation

8 Members

- Two PA organisations
- Two FIE organisations
- Two academics or mission projects
- One chair
- One secretary

Commitment

- Six online meetings
- 2h preparation
- 2h meeting
- Total time commitment of 24 hours

We offer
 Best practices, knowledge, training materials, and innovative tools to boost climate adaptation finance
